Introduction

The successful organization of Intervision 2025 largely depends on effective customs clearance and freight delivery processes.

The purpose of this Guide is to provide general information on customs clearance processes in Russia, as well as logistics processes for Intervision 2025.

This Guide is primarily intended for:

- Participants in the Intervision 2025 Contest;
- Media accredited for the Intervision 2025 Contest;
- Suppliers of the Organizer of the Intervision 2025 Contest.

This Guide also serves as instructions for participants in the Intervision 2025 Contest and their teams who wish to send goods and equipment for the Intervision 2025 Contest. It contains details on the import and export of equipment and goods to and from Russia, including applicable laws, regulations, and policies, applicable procedures, and key contacts.

In this Guide, you will find information on customs regulation in the Russian Federation, shipping instructions, document proformas, and detailed customs clearance rules. Requirements and procedures for the import of certain special goods and luggage are also detailed. The Appendix provides forms of the main documents required for delivery and customs clearance in the territory of the Russian Federation.

The Art Traditions Foundation for Protection and Support of Cultural Heritage and Promotion of National and World Culture (organizer) and the logistics operator of the Contest will provide direct support for the delivery and customs clearance of goods only for goods, luggage, and delegations for Intervision 2025. The organizer and logistics operator will work closely with participants regarding their logistics and customs procedures to ensure the efficient and timely delivery of goods.

1.General Provisions

This section provides a brief overview of the key norms and rules of customs legislation applicable to participants in Intervision 2025, including media representatives, foreign performers, and officials.

Info@intervision.world www.intervision.world

1.1 Basics of customs legislation of the Russian Federation

The customs authorities of the Russian Federation ensure the implementation of state customs policy, direct management of customs affairs, and the coordination of the activities of other state bodies and other organizations in this area. The Russian customs authorities monitor compliance with rules and laws, ensure the economic security of Russia, and carry out and improve customs regulation.

Contact details and general information on customs legislation are available on the unified Internet portal of the customs authorities of the Russian Federation http://www.customs.gov.ru.

The Russian Federation is part of the Eurasian Economic Union (EAEU) together with the Republic of Armenia, the Republic of Belarus, the Republic of Kazakhstan, and the Kyrgyz Republic. Customs declarations are not required when EAEU goods are moved within the customs territory of the EAEU.

Goods imported into the Russian Federation from third countries are subject to customs declaration: a customs declaration must be submitted for these goods. Customs duties and taxes are not paid for the temporary import of goods intended for the preparation and conduct of international events.

Information on documents used in the field of customs regulation is provided in Appendix 6. This Guide provides information on the customs procedures that are more frequently applied when moving goods for the preparation and conduct of international events and on the conditions for the import of such goods without paying import duties and taxes.

It is important to note the following: the import of certain categories of goods into Russia is prohibited, and a number of other goods can be imported only if certain requirements are met and if the importer complies with the established procedure. To import such goods, the importer must submit the necessary permits to the customs authorities: licenses, certificates, permits, etc. The list of goods prohibited and restricted for import is provided in section 3.1.

We recommend familiarizing yourself with the customs clearance rules in advance and consulting with the logistics operator (contact information is provided in section 5.2).

Info@intervision.world www.intervision.world

1.2 Principles and rules for the import and export of goods for Intervision 2025 participants

Goods are placed under the customs procedure for temporary import (admission) for the purpose of temporary use in the customs territory of the EAEU in the Russian Federation. In this case, the goods are temporarily in use in the customs territory of the EAEU. Periodic payments, import customs duties, and taxes are not paid because the goods are intended for a concert event in accordance with paragraph 13 of Decision of the Council of the Eurasian Economic Commission No. 54 of 22 April 2024, "On Certain Issues of the Application of the Customs Procedure of Temporary Import" for the category of goods intended for concerts and similar events when placed under the customs procedure for temporary import.

The customs declaration of such goods upon import and re-export can be carried out using:

- temporary import/export procedure customs clearance based on an invoice with the submission of a customs declaration;
- temporary import/export procedure using an ATA Carnet in this case, the ATA
 Carnet itself is used as a customs declaration. If your country is on the list of
 countries supporting the ATA Carnet procedure (Appendix 2), use this procedure
 and apply for an ATA Carnet from your country's Chamber of Commerce.

A comparison table of temporary importation procedures and ATA Carnet is presented on the next page

Info@intervision.world www.intervision.world

Comparison of Temporary Import Procedures and ATA Carnet

	Temporary Import	ATA Carnet
Customs Payments	Not required for the import of goods intended for concerts and similar events	No
Financial Guarantees	Not required	Not required in the Russian Federation
NOT Applicable for Goods	 food and beverages, including alcohol, tobacco, semi-finished products, consumables, and samples, unless they are used for advertising or exhibitions; waste, including industrial waste; goods whose import is prohibited: for example, ozone-depleting substances, hazardous waste, weapons, and ammunition. 	Restricted types of goods according to the list under the ATA Carnet Convention
Customs declaration form	Electronic form in accordance with Decision of the Customs Union Commission No. 257, dated 20 May 2010, "On the form of the declaration for goods and the procedure for its completion" (procedure IM-53)	The ATA Carnet itself is used as a customs declaration
Import period	Up to 2 years	Up to 1 year
Closure of procedure/export	Re-export of temporarily imported goods	Re-export

Info@intervision.world www.intervision.world

2. Import of goods

2.1 Preparation for movement of goods

General procedure:

- 1. Prepare a list of goods for shipment, coordinate with the logistics operator team, check for prohibited goods, and exclude them if present.
- 2. Choose the customs procedure for import into the Russian Federation. Apply for an ATA Carnet from your country's Chamber of Commerce/coordinate the temporary import procedure.
- 3. Prepare transport documents.
- 4. Organize labeling, provide photographs.
- 5. Securely pack the goods.
- 6. Hand the goods over to the designated carrier on the agreed date.
- 7. International delivery.
- 8. Customs clearance in Russia.
- 9. Delivery to the warehouse/final destination.

2.2 Customs procedures

Different forms of customs declaration may be used depending on the customs procedure chosen:

- ATA Carnet the ATA Carnet itself is used as a customs declaration. If your country is
 on the list of countries supporting the ATA Carnet procedure (Appendix 2), use this
 procedure and apply for an ATA Carnet from your country's Chamber of
 Commerce;
- Temporary import/export procedure customs clearance using an invoice and the submission of a customs declaration;
- Procedure for release for domestic consumption standard form of customs declaration. This can be used if you do not intend to return the goods to the country of origin.

Info@intervision.world www.intervision.world

2.2.1 ATA Carnet

If you are entering Russia from a country that issues ATA Carnets and your goods fall under the ATA Carnet procedure, you can temporarily import such goods for Intervision 2025 without paying customs duties and taxes. The ATA Carnet is submitted in place of the standard customs declaration during import and re-export and provides a financial guarantee for any customs payments potentially due on the temporary importation of goods.

The ATA Carnet applies to goods meeting the criteria which are temporarily imported for up to 1 year. It does not apply to consumables, disposable items, or goods intended for sale.

The list below provides a general idea of the types of goods suitable for processing under the ATA Carnet Convention for temporary import:

- Professional cinematographic equipment and equipment for the press, sound recording, or broadcasting, including accessories;
- Equipment for the installation, testing, commissioning, inspection, control, maintenance, or repair of machines, vehicles, etc.;
- Goods necessary for business purposes (PCs, audio/video devices);
- Photo equipment (cameras of all types, cassettes, exposure meters, lenses, tripods, batteries, battery belts, chargers, monitors, lighting equipment, etc.);
- Goods used for educational, cultural, or sports purposes;
- · Goods for demonstration or use at exhibitions, fairs, meetings, or similar events;
- Containers or other reusable packaging materials.

We recommend indicating "goods are intended for use during the Intervision 2025 Contest" in the commercial documents accompanying the goods and in field C "Intended use of goods" of the ATA Carnet.

It is mandatory to provide a confirmation letter from the ATA Carnet holder about the intended use and duration of stay in Russia, and this letter can expedite the customs clearance process.

Please carefully fill in the fields to ensure that the name of the ATA Carnet holder and their representative, the description, quantity, and value of the goods, as well as other items, are correctly indicated.

Info@intervision.world www.intervision.world

If field B of the ATA Carnet states "any authorized person," you must issue a Power of Attorney or Authorization Letter from the ATA Carnet holder. The Power of Attorney or Authorization Letter must include the date of issuance.

Take high-quality photographs of your equipment, as this will help in the identification of the goods during customs inspection in Russia.

The customs post at the Russian border will stamp the detachable white part ("Importation counterfoil"). The white part will be removed, and the ATA Carnet will be returned to you/sent with the cargo. This means that the goods have been released by customs for temporary stay and can be delivered to the final destination.

After using your temporarily imported goods at the Contest, the Logistics operator will declare them for return (re-export) under the ATA Carnet.

Info@intervision.world www.intervision.world

2.2.2 Temporary importation

This procedure requires an invoice. A sample of such an invoice is provided in Appendix 3. The sender must specify the duration of stay in Russia, which must not exceed 31 December 2025.

As a rule, after the event, the goods will be returned (re-exported) with the closure of the temporary importation procedure.

Cargo imported in several batches under several temporary importation procedures may be consolidated and returned in one shipment.

2.2.3 Temporary importation — consumables and disposable materials

Temporary importation does not apply to consumables such as uniforms, finished decorations, cables, fittings, etc. In this case, the procedure for importation and customs clearance into the territory of the Russian Federation must be applied.

Notify the logistics operator team in advance if you plan to send any consumables. The sender must specify the items, their quantity, and value.

2.3 Document preparation

All transport documents, such as the invoice, packing list, and others, must be addressed to the technical importer (IOR).

Consignee:

EuroLine Trading LLC

197374, Saint Petersburg, Municipal district №65, Yahtennaya str, 9, bld 1, lit. A, apt 138. INN/KPP 7814838490/781401001

INN/KPP 7814838490/781401001

OGRN 1247800047505

Info@intervision.world www.intervision.world

The following package of documents must be prepared for the customs declaration of goods for the purpose of placement under the customs procedure for temporary import/export:

- 1) CIPL:
- 2) Transport (shipping) documents (e.g., CMR or AWB);
- 3) Contract with the technical importer;
- 4) Photographs of the goods;
- 5) Permission documents, if such documents are required for certain goods (e.g., certificates, licenses, etc.).

Typical errors in preparing goods for shipment are presented in Appendix 3.

2.3.1 Invoice and packing list (CIPL)

Instructions for preparing the invoice and packing list:

- Original invoice, printed on the participant company's letterhead, with original signature and stamp;
- The invoice must be agreed upon with the logistics operator team before preparation;
- All documents must be in either English or Russian;
- Indicate the number, description, country of origin, and HS code of each item;
- The value of each item, preferred currency USD;
- Serial/model numbers of each item;
- Type of case/packaging;
- · Contents of each case;
- Weight of each case;
- Dimensions of each case;
- Serial/model numbers, if any;
- It must contain the exact weight of each item and the correct total weight of the cargo (this is a very important factor in Russia, and discrepancies in weight will potentially lead to fines or delays).

Required quantity: 1 original and 3 copies.

A sample invoice/packing list is provided in Appendix 4.

Info@intervision.world www.intervision.world

2.3.2 Agreement with the technical importer (IOR) and Power of Attorney (POA)

This agreement is a requirement for customs procedures. It is necessary when importing goods under the temporary import/export procedure (customs clearance based on an invoice with the submission of a customs declaration). The agreement is concluded between the sender and the IOR in the Russian Federation.

The logistics operator will provide you with a proforma agreement for signing. A scanned copy is sufficient.

A Power of Attorney (POA) is required if the cargo is sent under the temporary import/export procedure using an ATA Carnet. If "any authorized person" is indicated in field B of the ATA Carnet, the sender must issue a power of attorney or authorization letter from the ATA Carnet holder. The authorization letter must include the date of its issuance.

Examples of a power of attorney and an authorization letter are provided in Appendices 5 and 6.

2.3.3 Photographs

Take clear photographs of each item to be shipped. This will help in the identification the goods during customs inspection in Russia.

Sample photographs are presented in Appendix 7.

2.3.4 Licenses, permits, rights holder consent

Please send a list of your shipment in advance to check and confirm the need for licenses and permits.

To avoid the need for letters from rights holders or additional licenses and certificates, we ask you to indicate whether the equipment/cargo declared for transportation is used (second-hand).

2.4 Marking instructions

Mark your boxes (pallets) with an appropriate special marking to facilitate the identification of your cargo. Each box and pallet must be clearly marked on several sides. A sample label is presented in Appendix 8.

Info@intervision.world www.intervision.world

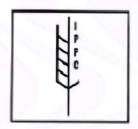

2.5 Packing instructions

Equipment must be packed according to the following instructions:

- All shipments must be carefully packed, placed on pallets, and wrapped in clear stretch film:
- Any fragile equipment must be clearly marked (indicating the bottom/top of the box). The sender must ensure the proper packaging of any non-standard items (unusual shapes, fragile, bulky, or stackable items, etc.) before pickup. The logistics operator must be informed in advance about these non-standard items to make all necessary arrangements with the forwarder;
- In the case of cargo shipped on pallets, note that the import of untreated wood (e.g., pallets or crates) into Russia must comply with the phytosanitary rules of ISPM 15, recognized by the World Trade Organization. These international rules were created to control and prevent the spread of forest pests and wood diseases.

Boxes, crates, or packaging items made of plywood, composite wood, or pre-formed wood (with glue, under heat or pressure) are not subject to ISPM15 rules.

Pallets, crates, or packaging items made of untreated wood are subject to ISPM15 rules. Untreated wood that has been treated is marked with a "leaf" logo to show that it has been treated according to ISPM15 standards and can be exported to Russia.

"Leaf" Logo for ISPM15

All suppliers shipping equipment or cables must ensure that their wooden packaging complies with ISPM15 rules and that any materials made of untreated wood have been treated and marked with the "leaf" logo.

Info@intervision.world www.intervision.world

3 Customs procedures for media and when importing personal luggage

Professional equipment to be used during Intervision 2025 should not be brought into Russia in hand luggage without prior verification with the logistics operator. If it does not have the correct documents, it may be detained for further checks.

3.1 Standard procedures

The passenger/delegation must collect their luggage and pass through the green or red corridor.

A passenger may pass through the green corridor without submitting a Passenger Customs Declaration if they are bringing personal items for the period of their temporary stay in Russia, such as:

- Ordinary goods for personal use (clothing, skincare products, personal jewelry, etc.);
- Medicines for personal use, except those containing narcotic or psychotropic substances;
- Goods valued at less than 10,000 euros and with a total gross weight of less than 50 kg;
- Alcohol (up to 3 liters per person over 18 years old);
- Limited quantity of tobacco products (up to 200 cigarettes or 50 cigars/cigarillos or 250 grams of tobacco per person over 18 years old);
- Other goods for personal use not listed in the subsection (red corridor) below.

The <u>red</u> corridor is intended for movement across the customs border of goods for personal use which are subject to customs declaration, as well as goods for which customs declaration is carried out at the request of the individual, in accompanied baggage.

Info@intervision.world www.intervision.world

The red corridor (goods for declaration) includes:

- Goods weighing more than 50 kg or valued at more than 10,000 euros;
- Cash and/or traveler's checks amounting to more than 10,000 US dollars, as well as monetary instruments. This does not apply to cash or bank cards;
- Civil firearms and ammunition;
- Objects of cultural value (paintings, drawings, antique coins, collectibles, books, etc.);
- Personal-use goods imported into the country in accompanied baggage if the passenger is also importing unaccompanied baggage into the country (both must be declared in the red corridor);
- Vehicles temporarily imported for personal use;
- Commercial goods.

The list of goods that do not qualify as personal use goods is presented in Appendix 9. Failure to comply with this requirement may result in significant administrative fines, the confiscation of undeclared items (including cash), or even criminal liability.

Customs payments are due for goods exceeding the above-established limits.

The passenger must pass through the red corridor with a completed customs declaration. A sample passenger customs declaration is presented in Appendix 10.

Info@intervision.world www.intervision.world

3.2 Principles and rules for the import and export of goods for the media

In conducting customs operations for professional equipment, Russian and foreign media may use the procedure that provides for the submission of a List of Goods to the customs authority as a declaration. The form of this list is approved by Decision of the Customs Union Commission No. 263, dated 20 May 2010 (Appendix 11).

Currently, only the obligation for re-import/export is provided to the customs authority together with the list.

Samples of the list and obligation are presented in Appendices 11 and 12. The customs team staff of the logistics operator will assist with filling out these documents.

For foreign media, the temporary import of professional equipment is also possible in the following forms:

- Using the "Convention on Temporary Admission" dated 26 June 1990, with the use of ATA carnets;
- Using the "Convention on Temporary Admission" dated 26 June 1990 without the presentation of a customs document (without the presentation of a goods declaration) or security being required.

A written statement on import/export and a list of equipment may be submitted to the customs authority in any form. The statement indicates the intended date of import/export of the equipment and confirms its use by the person directly transporting the equipment. If the statement contains a list of temporarily moved equipment, a separate list of equipment is not required. The statement must include the following information for each item included in the set of equipment:

- Brand;
- Model:
- Product identification number;
- · Quantity;
- Value:
- Period of temporary import.

This procedure is processed in the red corridor.

The authority of the persons signing the List and Obligation is confirmed by presenting the official of the customs authority with identification as a correspondent of a foreign media outlet or a special correspondent card of a foreign media outlet.

Info@intervision.world www.intervision.world

3.3 ATA Carnet procedure

If a passenger, as an individual or media, crosses the Russian border and, in addition to personal belongings, has goods in the baggage for further use by a legal entity (organization), such goods are considered cargo and must undergo customs clearance. The countries listed in Appendix 2 may also use the ATA Carnet for such shipments. Customs clearance using the ATA Carnet for such goods will be available before the red corridor with the assistance of the logistics operator.

The following documents must be provided for customs clearance:

- ATA Carnet:
- List of goods in the form of an additional sheet or on the company's letterhead;
- Power of attorney (Authorization letter) issued by the organization importing the goods, in the name of the person who will declare the goods on behalf of this organization;
- Copy of the passport of the person who will declare the goods on behalf of this organization;
- Boarding pass of the person who will declare the goods on behalf of this organization.

Info@intervision.world www.intervision.world

3.4 Temporary import procedure

If your country is not among the countries that have signed the Convention on the Use of the ATA Carnet for Temporary Admission, customs clearance of personal luggage, including goods for further use by legal entities, can be carried out under the temporary import/export procedure with the submission of a customs declaration.

The following documents must be provided for customs clearance:

Customs declaration submitted by the logistics operator; List of goods in the form of an additional sheet or on the company's letterhead; Copy of the boarding pass of the person importing the goods; Contract between the technical importer in the Russian Federation and the sender; Boarding pass of the person importing the goods on behalf of this organization.

Please note the goods for which the customs procedure for temporary importation does not apply:

- Food products;
- Beverages, including alcoholic;
- Tobacco and tobacco products;
- Raw materials and semi-finished products;
- Consumables:
- Waste:
- Goods prohibited for import.

3.5 Instructions for customs clearance of participants' personal luggage

After the passenger arrives at the airport and passes border control, the passenger determines the corridor necessary for customs control based on the goods carried in personal luggage, taking into account point 3.1 of this Guide.

If there are no goods in the luggage subject to declaration, proceed independently through the green corridor.

If there are goods in personal luggage subject to declaration, the Logistics operator's employee will help prepare and fill out all necessary documents for the clearance of these goods and for passing customs control in the red corridor.

Please provide notice of your arrival and list of goods in advance using the email from section 5.2.

Info@intervision.world www.intervision.world

3.6 Procedure and conditions for customs clearance of oversized luggage

If your luggage is oversized and weighs more than 32 kg but not more than 50 kg, or the dimensions of the luggage exceed 203 cm, you need to coordinate its transportation with the airline no later than 36 hours before departure.

Please also inform the logistics operator in advance if the passenger is traveling with oversized luggage.

Info@intervision.world www.intervision.world

4. Special categories of goods and luggage

4.1 Goods prohibited or restricted for import

Below are the goods and products that cannot be sent until confirmation is received from the logistics operator:

- High-frequency and radio-electronic equipment, X-ray equipment;
- Objects of cultural value (the consent of the Ministry of Culture is required);
- Food products, beverages, and any types of food;
- Chemical products;
- Animals, as well as any products made from animal parts;
- Any type of vehicles;
- Any goods containing radioactive and hazardous substances;
- Alcoholic beverages;
- Goods originating in countries of the EU (due to sanctions);
- Certain items which cannot be transported by air according to airline rules.

The above-mentioned goods require prior permission from the relevant authority of the Russian Federation.

Below is a list of goods prohibited for import into the territory of the Russian Federation:

Weapons and ammunition, explosives, fireworks, military equipment, etc.;

Weapons and explosive devices;

Certain medicinal and veterinary drugs.

The full list of goods prohibited for import into the Russian Federation (from the official customs website) is available at the link below (in Russian only):

https://customs.gov.ru/uchastnikam-ved/zaprety-i-ogranicheniya/tovary,-zapreshhennye-k-vvozu-na-territoriyu-rossijskoj-federaczii-v-svyazi-s-primeneniem-speczial-nyx-ekonomicheskix-mer/perechen--stran-i-tovarov

Info@intervision.world www.intervision.world

4.2 Dangerous goods

A separate shipment with a separate set of documents must be organized for the air transportation of dangerous goods.

If you have any equipment that may potentially be classified as "Dangerous Goods" (e.g., batteries, generators, lubricants, alcohol-based cleaning agents, flammable or combustible substances, compressed gases, or compressed air cylinders), please contact the logistics operator team directly for clear packaging instructions in your specific case.

For the shipment of dangerous goods, a Safety Data Sheet (MSDS) for Dangerous Goods will be required for proper packing and labeling.

As a rule, suppliers are advised not to use damaged batteries. Each supplier is responsible for handling their dangerous goods.

The main risk when transporting lithium batteries is short circuit. To avoid this, all batteries must be:

- Packed separately from the camera (in their branded boxes);
- Have additional bubble wrap for protection to prevent short circuits.

It is also recommended to pack each battery in a fully enclosed inner packaging made of non-conductive material (e.g., plastic bags). International regulations recommend securely packing batteries to prevent them from shifting during transportation.

All cases containing batteries must bear the label "CAUTION LITHIUM ION (or) LITHIUM METAL BATTERY" (Appendix 13).

Info@intervision.world www.intervision.world

4.3 Medications and pharmaceuticals

Individuals are not allowed to import and/or export narcotic drugs, psychotropic substances, or their precursors in the form of medications for personal use, even with medical indications and supporting medical documents.

The list of narcotic drugs and psychotropic substances prohibited from being moved across the customs border of the Eurasian Economic Union can be found:

- on the legal portal of the Eurasian Economic Union https://docs.eaeunion.org (Decision of the Board of the Eurasian Economic Commission No. 30 dated 21 April 2015 "On Non-Tariff Regulation Measures").

Individuals cannot import medical equipment as goods for personal use, except in cases where it is necessary for them based on medical indications confirmed by a document issued by a doctor.

Info@intervision.world www.intervision.world

4.4 Objects of cultural value

Individuals may import objects of cultural value which belong to them (with confirmation of their classification as such in accordance with the legislation of the EAEU member state).

Individuals are not required to provide permit documents when importing objects of cultural value.

The export of objects of cultural value by individuals as goods for personal use which have previously been temporarily imported into the customs territory of the EAEU is carried out upon presentation to the customs authority of the EAEU member state of the passenger customs declaration issued upon the importation of the objects of cultural value which contains the identifying features of the specified objects of cultural value. In the absence of a passenger customs declaration issued upon the importation of objects of cultural value as goods for personal use, the export of objects of cultural value by individuals as goods for personal use is carried out with the presence of a Conclusion (permit document) issued by the coordinating authority or with written notification from the coordinating authority that a Conclusion (permit document) for the export of the corresponding objects of cultural value is not required.

Thus, we draw attention to the following: if the temporary importation of an item classified as an object of cultural value is planned, it is necessary to fill out a passenger customs declaration in 2 copies upon importation, one of which will be required upon reexport.

Phaleristics items, such as orders, medals (except for personal awards for which there are order books or award certificates, exported by the awardee themselves), as well as commemorative and award badges, table medals and seals, badges, tokens, etc., created more than 50 years ago are classified as objects of cultural value.

When exported from the customs territory of the EAEU, objects of cultural value are subject to customs declaration in written form by the submission of a passenger customs declaration. The export of objects of cultural value by individuals as goods for personal use is carried out with the presence of a Conclusion (permit document).

In the Russian Federation, such a Conclusion (permit document) is issued by the Ministry of Culture of the Russian Federation.

Info@intervision.world www.intervision.world

5. Support from the Organizer and logistics operator

5.1 Support for participants upon arrival and during stay

The Intervision 2025 Contest Organizer and the logistics operator provide full support to participants, media representatives, and Intervision 2025 delegations. The operating hours of the support line in August is weekdays from 9:00 to 20:00. In September 2025, it operates 24/7.

5.2 Contact information and interaction with the logistics operator

The official logistics service provider for Intervision 2025 is the EventLogistics team. Team members:

Yegor Balakhnin +7(925)417-31-06 Yelena Balakhnina +7(925)880-18-79 Maria Reshetnyak +7(926)847-71-72

General email for delivery and storage inquiries (in August, weekdays from 9:00 to 20:00, in September, 24/7):

Request.intervision@gmail.com

For all questions related to customs clearance in Russia, inquiries can be sent to the EventLogistics customs team (in August, weekdays from 9:00 to 20:00, in September, 24/7):

Yevgenii Goncharov

<u>Customs.intervision@gmail.com</u>

EventLogistics warehouse team (schedule in August, weekdays from 9:00 to 20:00, in September, 24/7):

Aleksei Gladkov +7(926)8969627

Request.intervision@gmail.com

Data on the technical importer (consignee) for all Intervision 2025 goods is presented in Appendix 3. The technical importer (IOR) is responsible for the goods from the moment they arrive in Russia until they are exported from Russian territory. The IOR complies with all customs regulations and verifies/closes customs records for all imported goods.

Info@intervision.world www.intervision.world

5.3 Services available from the logistics operator

The logistics operator provides a full range of services for delivery, customs clearance, and logistical support for Intervision 2025.

These services include:

- Customs clearance of goods for Intervision 2025 participants;
- Customs clearance of luggage and media in the red corridor;
- Organization of international delivery of goods from countries participating in Intervision 2025;
- Organization of warehouse storage of Intervision 2025 goods;
- Organization of local delivery of goods for Intervision 2025;
- Provision of special equipment (forklift, carts, etc.) and staff (loaders) for organizing loading and unloading operations;
- Other logistical services upon request through the Intervision 2025 Contest Organizer and at Request.intervision@gmail.com.

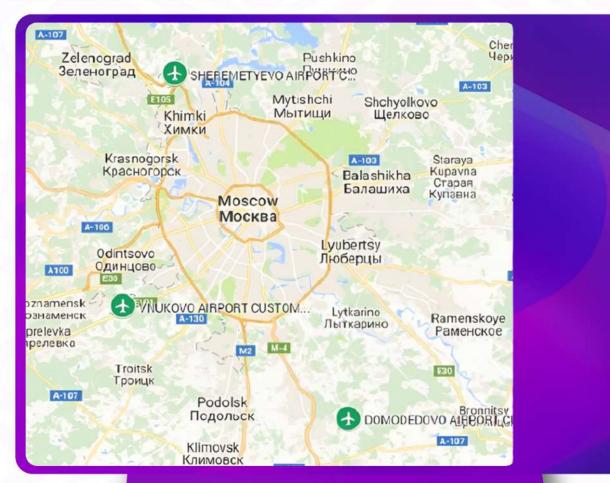

Info@intervision.world www.intervision.world

6. Customs support upon arrival in Russia

6.1 List of entry points

Participants and other guests of Intervision 2025 can arrive in Moscow through the following three passenger entry points:

- Sheremetyevo International Airport (SVO);
- Domodedovo International Airport (DME);
- Vnukovo International Airport (VKO).

Info@intervision.world www.intervision.world

6.2 Green/red corridor(s)

Upon entering the territory of the Russian Federation, it is necessary to undergo passport control and after which proceed through one of the corridors (green and red), descriptions of which are provided below.

The green corridor is intended for movement across the customs border of goods for personal use in accompanied baggage which are not subject to customs declaration.

The red corridor is intended for movement across the customs border of goods for personal use which are subject to customs declaration, as well as goods for which customs declaration is carried out at the request of the individual, in accompanied baggage. Please note that in the event of missing baggage lost during the flight, it is necessary to fill out a passenger customs declaration in two copies and proceed through the red corridor. For more detailed information, please contact an employee of the baggage tracing service or a representative of the respective airline at the airport. The application of the dual corridor system provides for the independent choice of the appropriate corridor by the individual crossing the customs border. Crossing the entry (arrival) line into the green corridor is a declaration by the individual of the absence of goods subject to customs declaration.

When choosing a corridor upon entry and exit, we recommend following these rules:

Entry	GREEN CORRIDOR	RED CORRIDOR
Completion of a passenger customs declaration	×	1
Goods	Goods for personal use (except ethyl alcohol and indivisible goods*) with a customs value not exceeding 500 euros equivalent (by air transport — 10,000 euros) and a total weight not exceeding 25 kg No more than 3 liters of alcoholic beverages and beer per person aged 18 and over 200 cigarettes, 50 cigars or cigarillos, 250 g of tobacco or the specified products in assortment with a total weight not exceeding 250 g per person aged 18 and over Used goods for personal use, regardless of their customs value and weight No prohibited or restricted goods for import	Goods for personal use with a customs value exceeding 500 euros equivalent (by air transport — 10,000 euros) or weighing more than 25 kg More than 3 liters of alcoholic beverages and beer per person, aged 18 and over Indivisible goods* Ethyl alcohol Goods prohibited or restricted for import Passenger wishes to declare imported goods Unaccompanied baggage Goods delivered by carrier Goods imported with exemption from import customs duties or taxes, including objects of cultural value, if their value and/or weight exceeds the established duty-free import norms Live animals
Monetary assets	Rubles, foreign currency, traveler's checks, if their total amount does not exceed the equivalent of 10,000 US dollars.	Rubles, foreign currency, traveler's checks (if their total amount exceeds 10,000 US dollars in equivalent) and/or securities
Unaccompanied baggage	No unaccompanied baggage (including baggage which has not arrived or which was lost during the flight)	There is unaccompanied baggage (including baggage which has not arrived or was lost during the flight) or goods arriving in a cargo shipment or express delivery shipment

Info@intervision.world www.intervision.world

* An indivisible item for personal use is understood as an item for personal use weighing more than 35 kg (including the actually transported primary packaging, which is inseparable from the item until its consumption and/or in which the item is presented for retail sale), consisting of one unit of the item (including transported in unassembled or disassembled form, including incomplete or unfinished form), provided that the division of such an item is impossible without changing its purpose. Compliance with the specified conditions for classifying goods as indivisible items for personal use can be confirmed based on information provided by the manufacturer, seller, or sender of the item on labels, in product passports, warranty cards, packing lists, or other documents, as well as based on the generally accepted (traditional) practice of using such an item, corresponding to its functional purpose.

Please send a list of the items the passenger intends to take in baggage to the logistics operator in advance.

Info@intervision.world www.intervision.world

7. Customs clearance upon departure from Russia

7.1 General provisions

Temporarily imported items not subject to declaration upon entry do not need to be declared upon exit.

Cash and traveler's checks exceeding 10,000 US dollars must be declared both upon entry and exit.

Departure	GREEN CORRIDOR	RED CORRIDOR
Completion of a passenger customs declaration	×	√
Goods	Exported goods are not prohibited or restricted for export	Exported goods are prohibited or restricted for export The passenger wishes to declare exported goods Objects of cultural value
Monetary assets	Rubles, foreign currency, traveler's checks, if their total amount does not exceed the equivalent of 10,000 US dollars.	Rubles, foreign currency, traveler's checks (if their total amount exceeds 10,000 US dollars in equivalent) and/or securities

The following rule applies in the export of goods: the customs clearance procedure (temporary import/ATA Carnet) used upon entry should be used upon exit.

Info@intervision.world www.intervision.world

7.2 Export of goods purchased in Russia

Before purchasing goods, check for any restrictions or quantitative limits on the export of such goods from Russia. For example, the export of objects of cultural value and rare items of Russian origin is allowed only with permission from the Ministry of Culture. Otherwise, you need to present to customs a permit or letter from the Ministry of Culture stating that the item is not an object of cultural value.

You are allowed to export from Russia no more than 5 kg of red caviar and 250 g of sturgeon caviar, which must be in retail packaging.

The passenger must ensure that documents related to the purchase of such items (payment receipt) are available when crossing the Russian border upon exit.

The Tax Free system is available in Russia. International flight passengers will be able to receive refunds of the value-added tax (VAT) on goods worth more than 10,000 rubles purchased in one store participating in the Tax Free system.

8. Information on the main locations of Intervision 2025

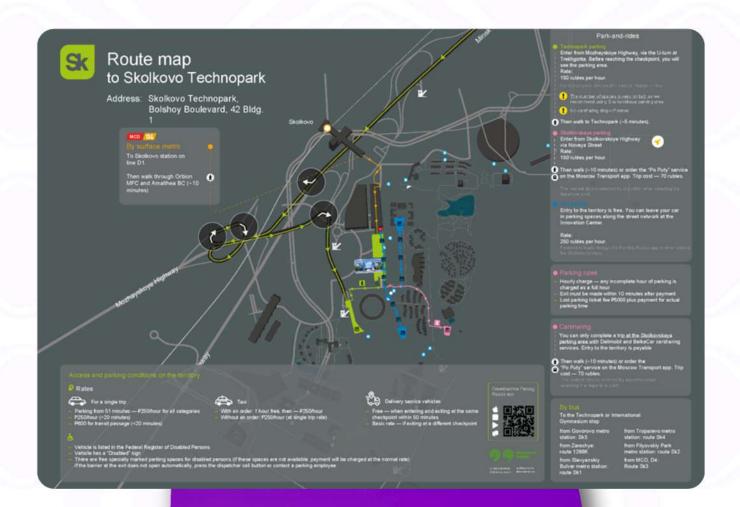

8.1 Media Centre (Skolkovo Technopark)

The Intervision 2025 Media Centre will be located in the Skolkovo Technopark. Address:

In English: Tekhnopark Skolkovo, Bolshoi blvd, 42 bld 1

In Russian: Технопарк Сколково, Большой бульвар, д.42, стр. 1

GPS: 55.69217, 37.4739

Info@intervision.world www.intervision.world

8.2 Concert Arena (Live Arena)

Address:

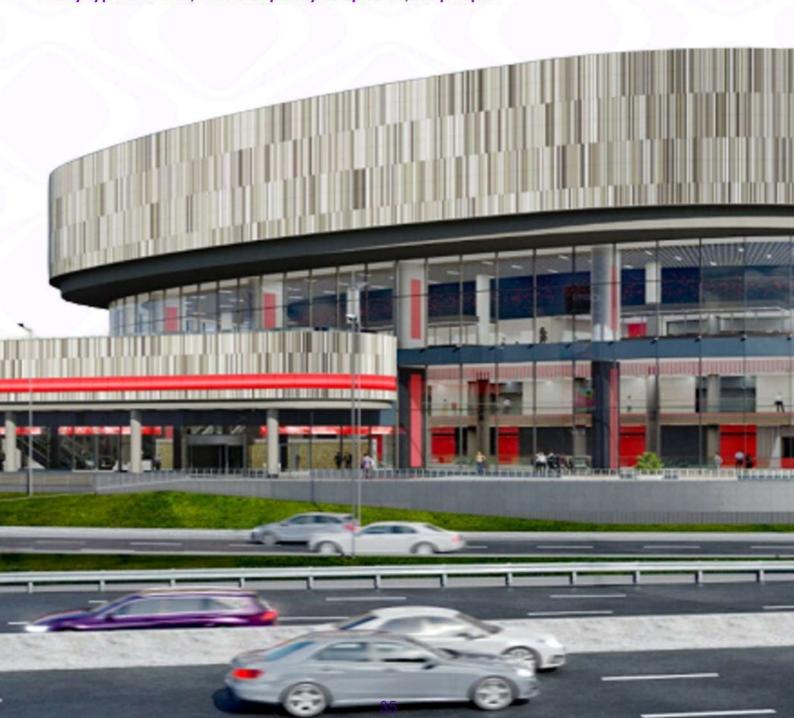

InRussian: Московская область, Одинцовский р-н, Новоивановское, ул. Западная,

145.

In English: Moscow region, Odintsovo, Novoivanovskoe, Zapadnaya str, 145.

GPS: 55.70641, 37.34983

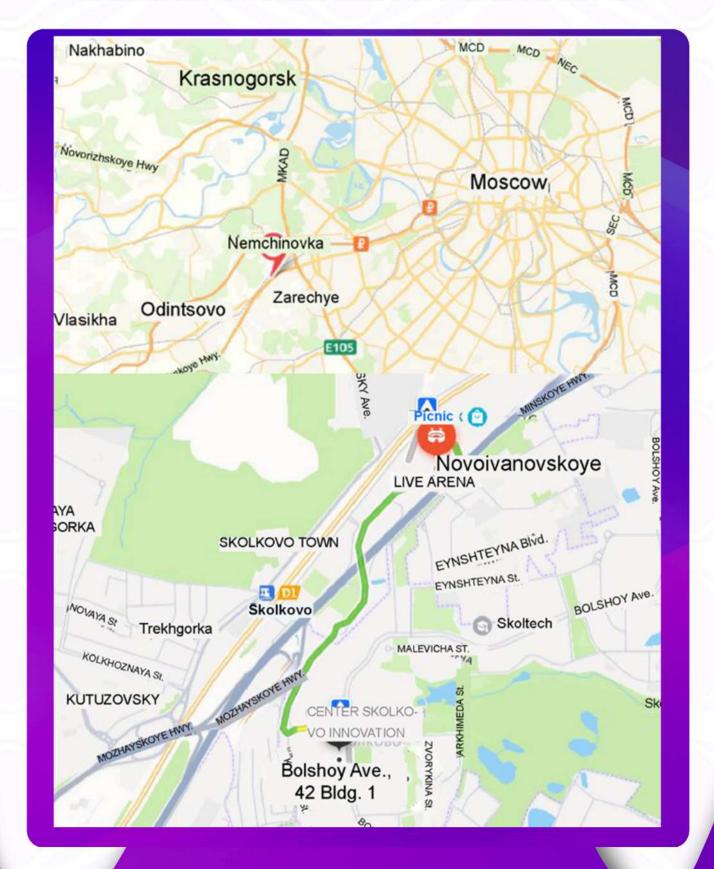

The Concert Arena is a multifunctional entertainment center that can be transformed for any type of event, with a capacity of up to 11,000 people.

Info@intervision.world www.intervision.world

The distance between the Media Centre and the Concert Arena is 3.2 km.

Info@intervision.world www.intervision.world

8.3 Project warehouse

Address:

In Russian: Московская область, Ленинский р-н, с.п. Молоковское, дер. Андреевское, ул. Центральная, 14. Индустриальный парк Андреевское.

In English: Moscow region, Leninski region, s.p. Molokovskoe, der. Andreevskoe, Zentralnaya str, 14. Industrial park Andreevskoe.

GPS: 55.54797, 37.91174

Info@intervision.world www.intervision.world

9. Frequently asked questions

What should I do if the goods I brought into the country, which were processed under the temporary import customs procedure, were damaged or lost in an accident or other unforeseen events?

These goods must still be exported from the territory of the EAEU in the event of damage. In the event of loss, you should immediately inform the logistics operator.

You should also contact the police and/or the territorial divisions of the Ministry of Emergency Situations of the Russian Federation (EMERCOM). You can find the contact information of these agencies on the websites of the Ministry of Internal Affairs of the Russian Federation (MVD, http://mbd.pф, 24-hour single number 102) and EMERCOM (http://mchs.gov.ru, 24-hour number 112). In addition, assistance will be organized by the Art Traditions Foundation for Protection and Support of Cultural Heritage and Promotion of National and World Culture.

The choice between the above-mentioned agencies depends on the specific circumstances under which the goods were irretrievably lost or destroyed. In particular, in the event of fire, flood, etc., you should contact the territorial body of EMERCOM. If the goods were lost as a result of a traffic accident or theft, you should contact the police.

Can I place goods intended for sale or free distribution during the Contest (e.g., T-shirts, caps) under the temporary import customs procedure?

No, you cannot place goods intended for sale or distribution under the temporary import customs procedure. Goods imported into the Russian Federation for sale or other commercial purposes, as well as those consumed in the territory of the Russian Federation, must be placed under the customs procedure for release for domestic consumption with the payment of customs duties. For some goods, it will also be necessary to present permits to the customs authorities.

Info@intervision.world www.intervision.world

Can I import food products characteristic of my country forconsumption? What documents need to be provided?

When entering the Russian Federation, you can bring with you a limited amount (no more than 5 kilograms) of ready-to-eat animal-origin food products in original retail packaging, as well as no more than 5 kilograms of plant-origin food products. If you wish to import any other food products (e.g., raw meat or fish, vegetables, fruits), you must ensure compliance with the EAEU rules in the field of veterinary and phytosanitary controls regarding food products of animal or non-animal origin and obtain the necessary permits and certificates.

What amount of cash must be declared?

Individuals importing or exporting cash and traveler's checks in an amount exceeding 10,000 US dollars (or its equivalent in another currency) when crossing the border of the Russian Federation are required to declare such money and traveler's checks by filling out a passenger customs declaration (additional form) and proceed to the red corridor. The procedure for importing cash, traveler's checks, and monetary instruments is described in sections 3.1 and 6.2 of this Guide.

Is it possible to import a private drone?

The import into the Russian Federation of unmanned aerial vehicles (hereinafter referred to as UAVs) capable of delivering a payload of at least 500 kg over a distance of at least 300 km, as well as related systems, equipment, and components, or the export from the Russian Federation of UAVs with a maximum flight duration of 30 minutes or more (but less than 1 hour), and designed for takeoff and stable controlled flight in wind gusts of 46.3 km/h (25 knots) or more, as well as aircraft with a maximum flight duration of 1 hour or more regardless of other characteristics, is possible only with a license from the FSTEC of Russia.

Import into the Russian Federation or export from the Russian Federation without export control measures is permitted for UAVs with technical characteristics less than the above parameters.

Please note that the purchase of a UAV in a retail location is not a sufficient basis for its import or export without a permit document.

Goods subject to export control measures are included in the List of categories of goods not considered goods for personal use.

Info@intervision.world www.intervision.world

According to paragraph 7 of Article 256 of the EAEU Customs Code, the provisions of Chapter 37 of the EAEU Customs Code do not apply to goods moved across the customs border of the EAEU by individuals that are not classified as goods for personal use. Such goods are subject to movement across the customs border of the EAEU in the manner and under the conditions established by other chapters of the EAEU Customs Code (with the submission of a goods declaration).

According to the Regulation, the import of high-frequency radio equipment by individuals as goods for personal use is carried out upon presentation to the customs authority of a conclusion (permit document) drawn up in the form approved by Decision of the Board of the Eurasian Economic Commission No. 45, dated 16 May 2012, (hereinafter referred to as a "conclusion (permit document)"), except in cases where the high-frequency radio equipment is included in:

- the unified register of radio-electronic instruments and high-frequency devices which
 may be imported into the customs territory of the Union with no license or conclusion
 (permit document), posted on the official website of the EAEU;
- the list of radio-electronic instruments and (or) high-frequency devices for civilian use, including those embedded or included in other goods, for which no license, conclusion (permit document), or information from the unified register is required when imported into the customs territory of the Eurasian Economic Union (Appendix No. 2 to the Regulation).

What do I do if my luggage is delayed?

If your unaccompanied baggage is lost, you must go through the red corridor.

If your accompanied baggage has not arrived, you need to contact the baggage search desk and also inform the supervisor of the logistics operator meeting you at the airport.

Is it permitted to import medicines in ampoules?

Individuals can import into the Russian Federation and export from the Russian Federation both registered and unregistered medicines that do not contain narcotic or psychotropic substances without presenting any permit documents to the customs authorities. Also, please note that ampoules should be transported in luggage, not in hand luggage.

Info@intervision.world www.intervision.world

How quickly is the temporary import procedure closed?

Goods placed under the customs procedure for temporary import (admission) must be exported within the period specified in the Application, but no later than 2 years. The procedure for closing temporary import is standard and usually takes no more than 48 hours.

How much cash may be exported from the Russian Federation?

Executive Order of the President of the Russian Federation No. 81, dated 1 March 2022, "On additional temporary economic measures to ensure the financial stability of the Russian Federation," introduced a ban, effective 2 March 2022, on the export of cash foreign currency and (or) monetary instruments in foreign currency from the Russian Federation in an amount exceeding the equivalent of 10,000 US dollars at the official exchange rate of the Central Bank of the Russian Federation on the date of export.

The specified ban applies to the export from the Russian Federation (both through the customs border of the EAEU and through the state border of the Russian Federation to the EAEU member states) of cash and (or) monetary instruments in foreign currency by individuals (residents and non-residents), including minors.

The ban does not apply to the export of cash and (or) monetary instruments in Russian rubles.

Appendix 14 Basic checklists

Checklist for artist

Prepare personal luggage.
Determine the nature and quantity of goods.
Check if there are any goods in the luggage that are prohibited from import into the Russian Federation or subject to declaration. Check imported medicines (whether they contain narcotic/psychotropic substances).
Determine whether personal musical instruments/concert costumes will be imported in the luggage.
Verify the value of the personal items in the luggage and the total weight of the luggage.
If the value of the personal items transported in the luggage exceeds 10,000 euros or the gross weight exceeds 50 kg, prepare and agree on a list with the logistics operator.
Provide the logistics operator with data for the preparation of the passenger customs declaration at least 24 hours before arrival.
Upon arrival at the destination airport, proceed to the green or red corridor (depending on the value of the personal luggage and the presence of goods subject to declaration).
When proceeding through the red corridor, jointly with the logistics operator,

Info@intervision.world www.intervision.world

Checklist for artist's technical team

Prepare personal luggage.
Determine the nature and quantity of goods.
Check if there are any goods in the luggage that are prohibited from import into the Russian Federation or subject to declaration or if there are special medicines requiring supporting documents from a doctor.
Determine whether technical equipment/decorations/various consumables will be imported in the luggage.
Verify the value of the personal items in the luggage.
Check the dimensions of the luggage. If the sizes exceed those specified in p.3.6, inform the logistics operator and agree on the possibility of import with the airline.
If the value of the personal items transported in the luggage exceeds 10,000 euros, prepare and agree on a list with the logistics operator.
Provide the logistics operator with data for the preparation of the passenger customs declaration at least 24 hours before arrival.
Upon arrival at the destination airport, proceed to the green or red corridor (depending on the value of the personal luggage and the presence of goods subject to declaration).
When proceeding through the red corridor, jointly with the logistics operator, submit a passenger customs declaration and undergo customs control.

Info@intervision.world www.intervision.world

Checklist for media

Determine the list of equipment for import.
If your country is on the list of countries supporting the ATA Carnet system (Appendix 2), submit an application to your country's Chamber of Commerce to obtain an ATA Carnet.
If your country is not on the list of countries supporting the ATA Carnet system, prepare and agree with the logistics operator on documents for temporary import: List of goods; Obligation.
Provide the logistics operator with information about the arrival no later than 24 hours in advance, as well as: A copy of the passenger's passport; Boarding pass; A copy of the foreign media correspondent's ID or the foreign media special correspondent's card;
Confirm that the agreed list of goods has not changed. Upon arrival, proceed to the red corridor, where customs clearance will be conducted jointly with the logistics operator's staff.
considered joining militario logished operation of and

Checklist for international suppliers of the Intervision 2025 Contest

the CIPL) and the customs procedure (temporary import/release for domestic consumption).
Check whether the goods are subject to certification, and whether special licenses or letters from rights holders are required. If necessary, the logistics operator can assist with the verification and processing of permit documentation.
Draw up a contract and invoice for import with the IOR appointed for the Intervision 2025 Contest.
Pack the goods in accordance with international standards, in reliable protective packaging. Use fumigated pallets (ISPM 15) in the case of goods delivery on pallets.
Label the goods for easy identification (see labeling example in Appendix 8).
